Tech4NonDev
Technology Essentials for Non-Developers
• Speak Tech • Think Tech • Work Smart.

Audience

Individuals looking to transition into Non-Technical Roles in the Tech Industry.

Course Description

The Tech4NonDev Cohort Program is a 6-month intensive training course which equips participants with essential project management, business analysis, product management, quality assurance, and agile methodologies to excel in the tech eco-system.

Course Overview

• First 3 Months (Training Phase): Participants undergo in-depth training in five professional courses, gaining knowledge and hands-on experience in:
- Project Management Professional (PMP)
- Scrum Master
- Business Analysis
- Product Management
- Quality Assurance

• Next 3 Months (Internship Phase): Participants work on a live project, collaborating in teams to apply the concepts learned. This hands-on experience prepares them for real-world job roles, ensuring they are industry ready.

Training Details.

Duration: 6 Months
Training Fee: £800

TESTIMONIALS

With over 500 participants, our Tech4nondev program has established itself as a leader in
Tech without coding education and helped many to move into many fields in Tech like
Health, Education, Banking, Insurance, Hospitality etc.

TECH4NONDEV TESTIMONIALS
COHORT 1.0.

Alfred & Victoria ASSOCIATES

My orientation has really changed as I am more equipped with industry demand skills that I have never been known to prior to the commencement of the cohort. It has helped me in building a very robust network of great minds that has been instrumental and resourceful to my career.

Name: Kenny Raji ; **Position:** Scrum master ; **Location:** Manchester, UK

TECH4NON DEV TESTIMONIALS
Cohort 1.1

Alfred & Victoria ASSOCIATES

★★★★☆

I found the training to be incredibly beneficial and it significantly expanded my understanding of various roles in the tech field. It provided a comprehensive understanding of tech concepts, frameworks, and tools without delving into actual coding practices. It has improved my critical reasoning, writing high and low-level requirements customer journey, user stories and presentation skills.

Name – Olalekan ; **Location –** United Kingdom ; **Position –** Business Analyst

Cohort 2.1

Alfred & Victoria ASSOCIATES

★★★★★

The hands-on projects and interactive workshops significantly enhanced my technical proficiency and problem-solving skills. Additionally, the support from instructors and collaboration with peers fostered a productive learning environment. Overall, the program equipped me with valuable tech skills applicable to various professional contexts. I highly recommend the TECH4NON-DEV Program. It provides practical tech skills, and enhances productivity through hands-on projects and collaboration.
